- Implementation of templates in CMS, configuration, administration, content filing
- Bug fixing
- Code improvement, redesign, correction, programming separate elements of existing projects
- Creating of html-emails

Hi, I'm an experienced Front-end developer. I started my developing journey in 2015. Now I'm working as **Vue JS** front-end developer. I've got a great experience in bootstrap frameworks, **flexbox** and **sass/scss** preprocessors. Also, I have good skills in **wordpress** developing. Constantly use **Photoshop**, **Illustrator**, **XD**, **Figma** and **Zeplin** in my work. I am a hard-working person and always improving my front-end skills. My goal is to become a full-stack dev.
